

# Melodies

- - - - 2x

One million of melodies. We've got a vision of that space.

Open doors + thousand ways like energy.

Sparkling spirit around our heads ... [aheah]

+ it really makes us feel so good !

As a matter of fact, it's harmony.

The break even point of our souls [yeah].

And little can move us, really little, like all these clinking tunes do, as you just can believe.

One million of melodies. The rhythm gets control of our souls.

It's Nature, it's harmony.

Thanks for this precious - roll.

A briskly beat down in the feet [aheah] + it really makes us feel so good !

As a matter of fact, it's harmony,

letting me break into a smile - yeah. [Take a look, here is mine.]

And little can move us, really little, like all these clinking tunes dooo  
as you just can believe.
